## **NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

NOTICE is hereby given that the County of El Dorado, State of California intends to adopt a Mitigated Negative Declaration for the project described below.

**TITLE:** Alder Drive at EID Canal – Bridge Replacement (No. 25C0069)(CIP #77123)

**LOCATION:** The Project is located north of U.S. 50, approximately 2.5 miles west of the community of Pollock Pines, and approximately 2 miles east of the community of Camino, in unincorporated El Dorado County. Just south of the Alder Drive Bridge, the roadway intersects with the Pony Express Trail approximately 2 miles east of the intersection of Pony Express Trail and Carson Road.

**APN:** Not applicable

**GENERAL DESCRIPTION:** The purpose of the Project is to replace the functionally obsolete Alder Drive Bridge over the EID Canal with a culvert that meets current design standards. The Project involves replacing the existing 32-foot-long, 18-foot-wide, two-lane reinforced concrete slab bridge with a double-barrel culvert (two 36-inch or equivalent size circular culverts) that meets current design standards. The proposed culvert would tie in with the existing 30-foot-wide roadway providing two 12-foot traffic lanes and 3-foot shoulders on each side of the roadway. The proposed culvert would be located at the existing bridge location. All widening would occur along the eastern side of the existing roadway. A more detailed description can be found within the environmental document at the website below.
