Figure 1. INRMP Inventory Map Update: Habitats that Support Special-Status Species

Map Features

- 4,000-foot contour - INRMP Study Area
- County Designated Community Region
- County Designated Rural Centers
- El Dorado County Important Biological Corridor
- El Dorado County Ecological Preserve
- Pine Hill Preserve
- USFS Land

CNDDB Plants[1]

Status: Federal, State, CNPS

- Endangered, Endangered, 1B.1
- Endangered, Rare, 1B.2
- Threatened, Rare, 1B.2
- None, None, 1B.1
- None, None, 1B.2
- None, None, 2.3
- None, None, 3.2

CNDDB Animals[1]

Status: Federal, State

- Threatened, None
- Delisted, Endangered
- None, Threatened
- Candidate, None
- None, None

CNDDB Habitats[1]

Sensitve Habitats

- Central Valley Drainage Hardhead/Squawfish Stream
- Central Valley Drainage Resident Rainbow Trout Stream
- Sacramento-San Joaquin Foothill/Valley Ephemeral Stream

USFS Data

- USFS Special Interest Area[2]
- USFS Spotted Owl PAC[3]
- USFS Goshawk PAC[3]
- Sensitive Plants[7]

Other Unique Habitats

- Serpentine Rock[4]
- Serpentine - Mixed Chaparral[4,5]
- Gabbro Chaparral[4, 5]
- Valley Oak Woodland[5]
- El Dorado County OWMP Priority Conservation Areas
- Holland Vernal Pool Complexes[9]

USFWS Boundaries

- USFWS Gabbro Plants Core Recovery Area[10]
- USFWS - Existing CRLF Core Recovery Area[8]
- USFWS - Revised CRLF Critical Habitat[6]

Notes

[1] California Department of Fish and Game Biogeographic Data Branch. California Natural Diversity Database (November 2009).

[2]United States Forest Service - Special Interest Areas; Botanical or Botanical/Geologic. Region 5 GIS data clearinghouse (December 2009)

[3]United States Forest Service - Goshawk and Spotted Owl Protected Activity Centers. Region 5 GIS data clearinghouse (December 2009)

[4]Soil information from the Natural Resource Conservation Service (NRCS). GIS database for the El Dorado Area downloaded from the NRCS website (2008). These soil types support a number of rare plants in El Dorado County.

[5] Vegetation community data extracted from the CalVeg database. CalVeg data is avaialble from the California Department of Forestry and Fire Protection (downloaded 01/2010). Last updated 2005

[6] U.S. Fish and Wildlife Service Critical Habitat for the California Red-legged Frog (2006). The USFWS has proposed (2008) new critical habitat, which would reduce the total acreage in El Dorado County.

[7] U.S. Forest Service Sensitve Plant Locations from Eldorado National Forest Supervisor's office (2008).

[8] U.S. Fish and Wildlife Service - Core Areas from the Recovery Plan for the California red-legged frog (*Rana aurora draytonii*)(2002).

[9] Central Valley Vernal Pool Complexes (Holland); U.S. Fish and Wildlife Service, Dr. Robert F. Holland, California Department of Fish and Game (1998).

[10] U.S. Fish and Wildlife Service - Core Areas from the Recovery Plan for listed Gabbro-endemic plants (2007).
