NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

NOTICE is hereby given that the County of El Dorado, State of California intends to adopt a Mitigated Negative Declaration for the project described below.

TITLE: Silva Valley Parkway Class I/II Bike Path/Lane Project. CIP #72310

LOCATION The proposed project is located along Silva Valley Parkway from Harvard Way north to Green Valley Road, within County road right of way, in the Community of El Dorado Hills, El Dorado County.

GENERAL DESCRIPTION: The proposed project consists of two components: a Class I multi-use path adjacent to Silva Valley Parkway and Class II bike lanes along Silva Valley Parkway. The proposed Class I multi-use path between Harvard Way and Appian Way (1.1 miles) would have two 4-foot paved travel lanes and 2-foot graded shoulders on both sides. The paved surface would consist of hot mix asphalt or a similar impermeable surface. Culverts or storm drains would be installed under the path in existing drainages to maintain flow across the path. Signs and pavement markings would be placed along the multi-use path at intersections with existing roads and at strategic locations. A crosswalk across Silva Valley Parkway would connect the new multi-use path to the existing New York Creek Trail (East).

The Class II bike lanes would be installed along the existing paved surface of the roadway, with one bike lane on the southbound (west) side of the road between Harvard Way and Green Valley Road (2 miles) and one bike lane on the northbound (east) side of the road between Appian Way and Green Valley Road (0.9 mile). A more detailed project description can be found in the MND document.
