

Lighting Instructions

Parks Division has implemented a token operated lighting system. Tokens can be purchased at the Chief Administrative Office - Parks Division, 330 Fair Lane, Bldg. A, Placerville, CA. Tokens are \$8 each.

Light hours are between Dusk until 10:00 PM.

The following instructions should help users minimize problems associated with operating the Lights:

- Each token will provide light on a single field for about 1 hour.
- A game will most likely require 3 tokens and depends on the start time of that game.
- Tokens inserted into the slot marked **Ball Field A** will light the **Little League Field**
- Tokens inserted into the slot marked **Ball Field B** will light the **Softball Field**
- Each field has a warning light and horn, which is mounted at the back of the utility building above the door. Five (5) minutes before time expires, the light and horn will sound.
- **LIGHTS TAKE 30 MINUTES TO RESTART ONCE TURNED OFF!** Please have tokens ready if you wish to continue playing.
- Fees for lighting are charged to reimburse the cost of electricity used and can vary with the costs of the utility company.
