

PRESS RELEASE

APRIL 10th PROPERTY TAX DEADLINE

According to K. E. Coleman, El Dorado County Treasurer-Tax Collector, the second installment of the secured property tax is now due and will be delinquent if not paid on or before April 10, 2019.

To pay online or to find answers to the most frequently asked property tax questions, access the website at <https://www.edcgov.us/taxcollector>. Taxpayers can also view or print copies of this year's tax bills or prior year tax bills from this website.

Electronic check and credit card payments made through this website are accepted as timely if paid before midnight April 10, 2019. Accepted cards include Visa, MasterCard, Discover, and American Express. Please note, the third-party credit card processing company charges an administrative processing fee for this service. If paying through your bank's online bill payment system, we recommend making payments no less than 10 days before the delinquent date. The law requires us to apply late penalties to all payments received after April 10, 2019.

As we continue the conversion from El Dorado County's antiquated mainframe property tax system to the more cost-effective server-based Megabyte system, some changes occurred as a result of the transition.

The Assessor's Parcel Number (APN) is now called the "Fee Parcel Number." If you know your old APN, simply add a "0" before the former two-digit number and replace the ending "100" with "000." For example, 116-030-**09-100** is now 116-030-**009-000**. Parcel Numbers can be found at: <https://www.edcgov.us/assessor> or by calling the Assessor's office at (530) 621-5719.

Current year secured tax bills, which were mailed in November of 2018, were the very first generated from the new Megabyte system. In this initial printing, only the first owner's name of the property, as listed in the tax rolls, printed on the bills. This has since been modified so that both owners' names appear on the tax bills.
