

VA Health Care Eligibility

The VA provides a Medical Benefits Package to all enrolled Veterans. This comprehensive plan provides a full range of preventive outpatient and inpatient services within VA health care system. Also, once you enroll in the VA's health care system, you can be seen at any VA facility across the country. VA operates an annual enrollment system that helps to manage the provision of health care by providing an overall population of beneficiaries. Additionally, the enrollment system ensures that Veterans who are eligible can get care and ensures that care is given to Veterans who are eligible. VA applies a variety of factors in determining Veterans' eligibility for enrollment, but once a Veteran is enrolled, that Veteran remains enrolled in the VA health care system.
