

NOW HIRING

PRINCIPAL ENGINEERING TECHNICIANS

Annual Salary Range \$88,712 — \$107,827 + Benefits

We are currently offering two hiring incentives!

Our Ideal Candidate will possess advanced knowledge and experience using Computer Aided Design and Drafting (CADD) in the preparation of complete plan sets and details for roadway and civil design projects. The ideal candidate will have a minimum 4 years of experience using AutoCAD Civil 3D to create surfaces, alignments and profiles, and have any understanding of highway design standard and industry practices. Our ideal candidate will have experience with supervising and training technical engineering staff and establishing positive working relationships. The candidate will be committed to using his or her full skill set and technical expertise in creating contract document drawings and other graphic exhibits for internal and external customers.

Minimum Qualifications: Equivalent to graduation from a four-year college or university with major coursework in an engineering discipline. Additional work experience at a level equivalent to the County's class of Senior Engineering Technician or Senior CADD Technician may be substituted for the education requirement on a year for year basis. **-OR-** Possession of a valid California certificate as an Engineer-in-Training, **AND,** Three (3) years' work experience at a level equivalent to the County's class of Senior Engineering Technician or Senior CADD Technician.
