

5 Year Environmental Improvement Program (Tahoe EIP)

5 Year Environmental Improvement Program (Tahoe EIP)

The Lake Tahoe Basin has long been at the forefront of water quality improvement at the Federal, State and Local levels. DOT's Tahoe environmental improvement program continues to be funded entirely by Federal, State, and Local agency grants that have water quality improvement as one of their main goals. Because DOT's environmental improvement projects are dependent on grant funds, the projects included in this 5 year capital program represent the department's best project delivery forecast at this time.
