NOTICE OF DECISION

The County of El Dorado Planning and Building Department is considering taking action on the following project request:

Request for approval of Design Review DR21-0008 for the Newman Multi-Family Home in the Diamond Springs, CA area submitted by Deanne Newman.

In accordance with the County of El Dorado Zoning Ordinance Title 130, Article 5, Section 130.50.040 B (Staff-level Review with Public Notice), the applicant is seeking approval by the Planning and Building Department Director for Design Review DR21-0008 to allow the construction and occupancy of a 1103-square-foot residence, an attached 542-square-foot accessory dwelling unit, 533-square-foot garage, and a total of 359 square feet of porch/deck space.

The 0.1-acre property is located on the north side of North Street approximately 50 feet west of the intersection with Odd Fellows Road in the El Dorado-Diamond Springs area, and is identified by Assessor's Parcel Number (APN) 054-381-023, has a Zoning Designation of Multi-Unit Residential within a Historic Design Review Overlay (RM-DR), and a General Plan Land Use Designation of Multi-Family Residential (MFR).

California Environmental Quality Act (CEQA) Determination: The project is Categorically Exempt from the California Environmental Quality Act (CEQA) Guidelines pursuant to Section 15303 (New Construction of Small Structures) stating that, "Class Three consists of construction and location of limited numbers of new, small facilities or structures including, but not limited to: (b) A duplex or similar multi-family residential structure totaling no more than four dwelling units." According to Zoning Code Section 130.52.030 B – Review Authority, Procedure, and CEQA, "The approval of a Design Review Permit is a ministerial project pursuant to CEQA, when in compliance with adopted Design Standards. The Design Review process shall be limited to consideration of compliance with established standards, provided that the use

proposed for the project site is an allowed use within the zone.” Approval of the Design Review would allow for the construction and occupancy of a 1103-square-foot residence, an attached 542-square-foot accessory dwelling unit, 533-square-foot garage, and a total of 359 square feet of porch/deck space. Therefore, the project qualifies for this exemption.
